

Overview:

National Water Carts offer poly tanks from 7000L up to 18000L, Australia's BIGGEST single piece poly cartage tank. Our tanks are safety baffle ball fitted as standard. Restricting liquid surge to a minimum, the baffle system displaces marginally more than 1% of total volume. Whether transiting a full or part load, the baffle system compliments the heavy duty tank construction for secure transport.

Inclusions:

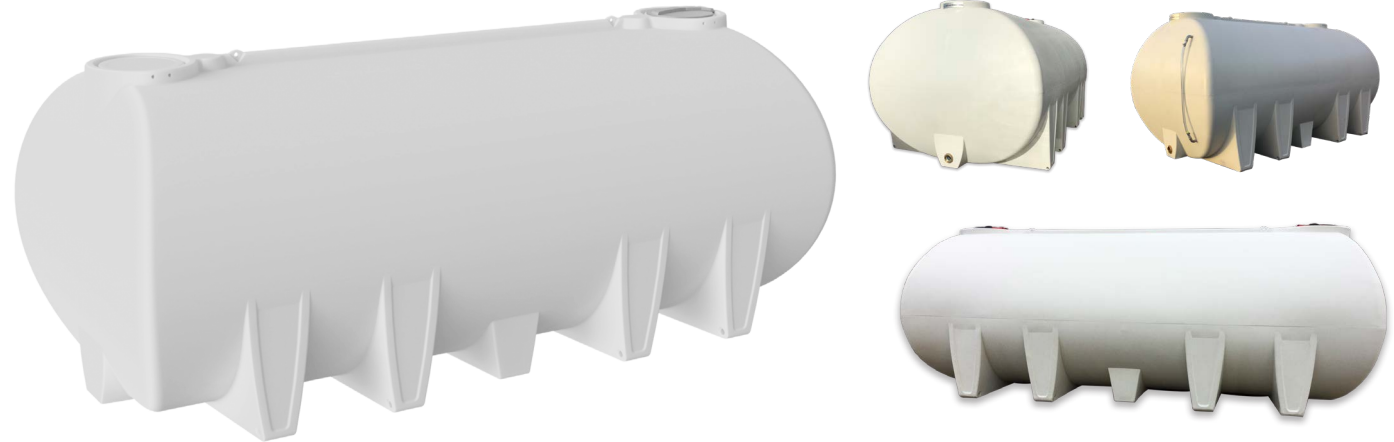

- Heavy Duty S.G 1.3 Cartage Tank (20 Year Warranty)
- UV Stabilised / Food Grade
- Safety Baffle Balls Fitted
- 2 x 455mm Lids
- 3" Brass Outlet
- Galvanised Steel Mounting Pins

Optional Features:

- Sight Level Gauge
- Forkable Gal Frame With Welded On Lifting Eyelets
- Overhead Funnel With Air Gap
- Funnel Fitted With Lockable Lid

Baffle Ball Details:

- Manufactured From Food Grade Polypropylene
- 355mm Diameter
- 1 Baffle Ball Per 40 Litres Of Tank Capacity

About The Baffle Ball System:

With your cartage tank filled to capacity with the ball baffles, a “honeycomb” of barriers is created inside your tank. Liquid surge and water movement is brought to a minimum.

No matter the current volume, the balls assist in dispersing your load volume evenly in all directions, minimising the impact of liquid surge.
